Recommendation Presentation

Mr. David Lansner presented a draft of proposals worked on by the Recommendations Drafting Subcommittee and Panel Chairs. He noted there were four main points of recommendations and sub-bullets of more specified objectives to achieve those main points. The panel took a vote (yes, no, need more information) on the title, main points, and sub-bullets to narrow down what they agreed on, what needs more work, and to address questions members may have.

Recommendation Discussion

The panel then moved into a discussion including questions, verbiage additions and concerns to the draft material. The panel made edits and moved into breakout rooms for further discussion of the context. Proceeding the breakout rooms, the panel was notified a follow-up survey would be dispersed on the finality of the draft, with a space to provide additional questions.
